## Our Lawn Care Program

Includes SIX applications per year that gives your lawn everything it needs when it needs it.

<b>Spring I</b>	Liquid application that includes a well-balanced fertilizer, premium crabgrass preventative and post-emergent weed controls to kill existing weeds.	Mid-Jan to Mid-Mar
<b>Spring II</b>	Liquid application that includes a well-balanced fertilizer, premium crabgrass preventative and post-emergent weed controls to kill existing weeds.	Mid-Mar to Early May
<b>Summer I</b>	Gypsum (soil conditioner) plus post-emergent weed controls to kill existing weeds.	May to June
<b>Summer II</b>	Pelletized Lime (soil conditioner) plus post-emergent weed controls to kill existing weeds.	July to Aug
<b>Fall I</b>	Slow Release Fertilizer or Starter Fertilizer for newly seeded lawns.	Sept to Oct
<b><i>Power Seeding Available at additional cost (includes aeration &amp; slit-seeding)</i></b>		
<b>Fall II</b>	Winterizing Fertilizer plus post-emergent weed controls to kill existing weeds.	Nov to Dec

We fertilize in the spring and fall when fescue grass is actively growing and condition the soil during the summer months when it is not. Service calls between applications are returned at no additional cost to the customer. We also offer a tree & shrub program, fungicide treatments and grub control per customer request. We have a separate program for warm season lawns, i.e. Bermuda and Zoysia, however the pricing and number of applications remains the same.
